

TOP 20 CARBON EMITTING COUNTRIES

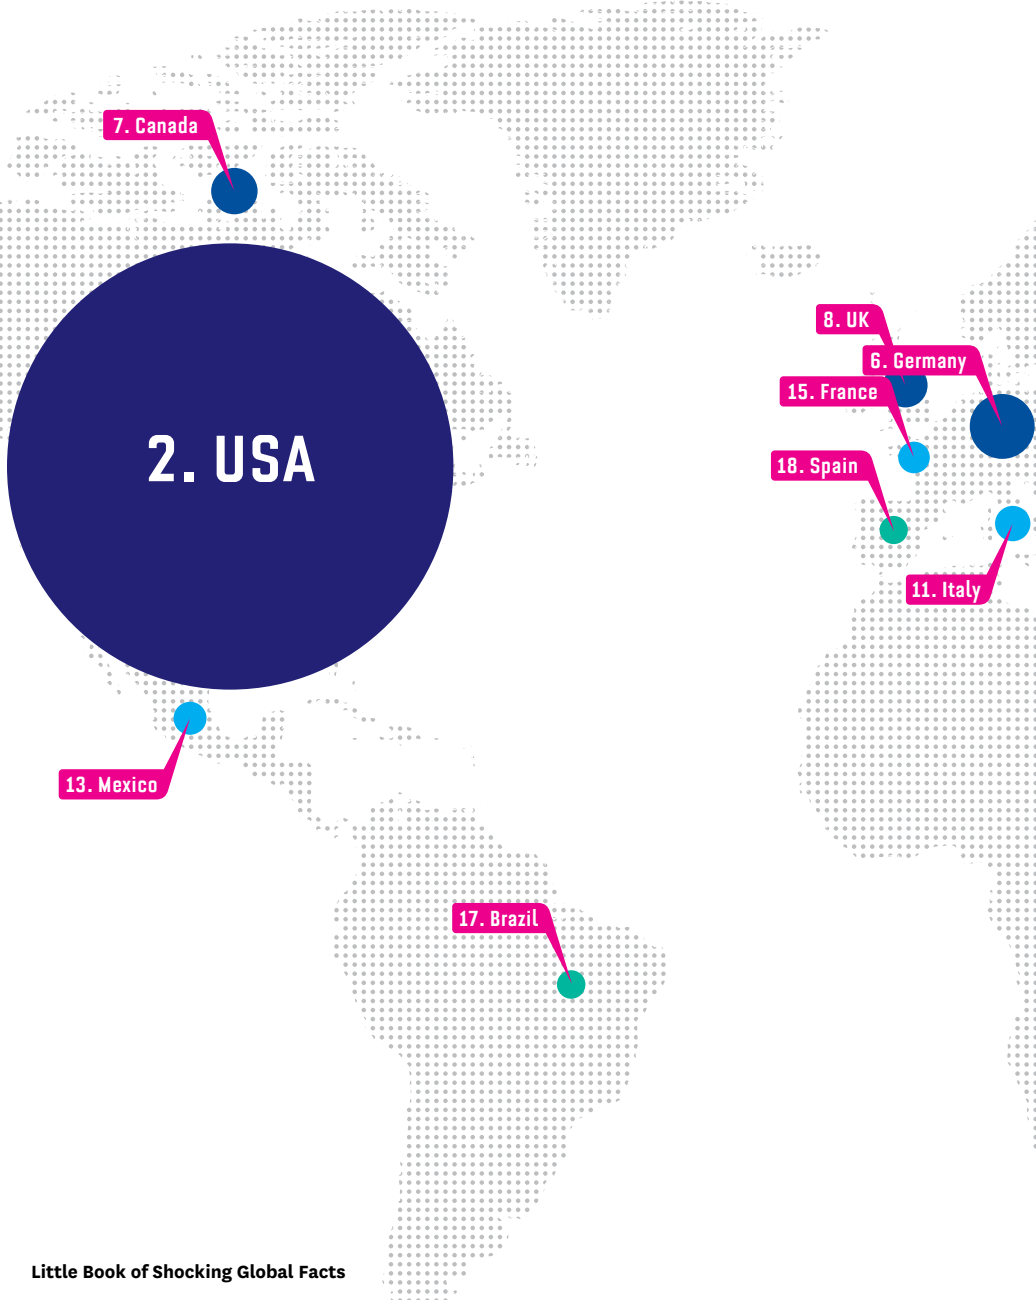

KEY: MILLION METRIC TONS OF CARBON DIOXIDE PER YEAR

<500

500-1000

1000-2000

>2000

A world map with a dotted texture. A large dark blue circle in the center contains the text "1. China". Surrounding this circle are 20 smaller callouts, each consisting of a colored circle (blue or pink) and a pink rectangular label with a white border. The callouts point to various geographical locations on the map. The countries listed are: 1. China (center), 3. Russia (top left), 4. India (bottom center), 5. Japan (right), 9. South Korea (right), 10. Iran (left), 12. South Africa (bottom left), 14. Saudi Arabi (left), 16. Australia (bottom right), 19. Ukraine (left), and 20. Poland (top left).
