

In what ways has RMIS helped you?

I have used RMIS to analyse my risk exposure, insurance, claims, loss data

RMIS has helped me to identify trends and potential losses quickly so that preventative measures can be put in place

RMIS has helped me to better manage retained risks

RMIS has helped me to measure progress towards risk management goals

RMIS has helped to improve strategic decision making

I have used RMIS data to alert board of directors of the company's potential risk exposures

RMIS has helped me to optimise risk transfer costs

RMIS has helped me to improve safety and loss control and to deliver a consistent risk culture

I have used RMIS to establish and implement an ERM framework across the business

RMIS has helped to improve the allocation of budgets and human capital
